

Puppy Escape

Narrative Recall Scoring Rubric (Full)

Overview

The Puppy Escape is a narrative recall task: the participant is **read and shown** a short story and asked to retell it from memory immediately, and then again after a 15-20 minute delay. Each row in the scoring table below captures one detail or concept that may appear in the participant's recall. Mark the **Checkbox** column for each item the participant covers (during recall), then enter the item's weight (or 0) in the **Scored** column and sum the column for the total (after recall).

Administration Instructions

- Instruct participant that they will be read and shown a short story, and that they should remember details.
"I will now read you a short story. Please read along with the story, and remember as many details as you can. I will ask you later about how much you remember."
- Place full-page narrative in front of participant. Read the narrative out loud, slowly and clearly, as the participant follows along.

NOTE: It is *not required* for participant to visually follow along. *Do not stop.*

Last weekend, Harry and Danielle were walking their dog Maddy through the park. They ran into some old friends that they hadn't seen in years. They struck up a long conversation about their lives, and decided to all go out to dinner on Thursday at Luigi's. However, it wasn't until after they said goodbye to their friends that they noticed that Maddy had gotten out of her leash! The couple searched throughout the whole park, calling out her name and getting more worried the longer they searched. He checked the nearby school and playground, and she investigated the baseball and soccer fields. Eventually, they found her: she was playing with a stick she found underneath a bench near where they stopped to talk with their friends.

- Immediately after finishing the story, **remove the full-page narrative** and then ask participant to recall as many details as they can about the story.
"Now tell me as much of the story as you can remember. Please be as detailed as you can."
- After a delay of 15-20 minutes (filled with surveys, additional assessments, or exams), ask participant to recall the story about the dog and describe everything they remember:
 - *"Remember the story you heard earlier about the dog. Please describe everything you remember about the story, being as detailed as you can."*

Scoring Instructions

During recall:

- For each item the participant covers, mark the **Checkbox** column.
- Items in ***bold italics*** require the word/phrase shown (or one of the listed alternates after *Accepted*:).
- All other items credit paraphrases and synonyms — score on the participant's *intent*, not their phrasing.
- Score 0 only when the concept is clearly absent or contradicted.

Scoring (after recall is finished):

- Fill the **Scored** column with the item's full **Weight** if checked, or 0 if not. Sum the column for the total.

Participant: _____

Date: _____

Immediate Recall

Q#	Question	✓	Weight	Scored
Background				
1	Did the participant give a time period for when the story took place (e.g., yesterday, last week, last month)?		1.0	
2	Did the participant specifically describe that this event took place last week ?		0.5	
3	Did the participant identify a man's name as a character in the story? (Not the name of a restaurant, store, or dog.)		1.0	
4	Did the participant correctly identify the name Harry ? <i>Accepted: Harry, Harold, Henry</i>		3.0	
5	Did the participant identify a woman's name as a character? (Not a restaurant, store, or dog.)		1.0	
6	Did the participant correctly identify the name Danielle ? <i>Accepted: Danielle, Dani, Danny</i>		3.0	
7	Did the participant identify a pet or animal in the story?		1.0	
8	Did the participant correctly recall that the story was about a dog? <i>Accepted: dog; puppy; canine</i>		2.0	
9	Did the participant identify that the animal had a name, even if it is incorrect?		1.0	
10	Did the participant correctly recall that the pet's name is Maddy ? <i>Accepted: Maddy, Madison, Mary</i>		3.0	
11	Did the participant describe a general location where the story took place (e.g., a park, playground, trail)?		1.0	
12	Did the participant correctly recall that the event took place in a park ?		2.0	
Meeting				
13	Did the participant describe the characters meeting with another person or group of people?		1.0	
14	Did the participant recall that the characters ran into some old friends ? <i>Accepted: friends, acquaintances</i>		2.0	
15	Did the participant imply that the characters hadn't seen their friends in a long time?		0.5	
16	Did the participant specifically recall that the characters hadn't seen their friends in years ?		1.0	
17	Did the participant describe any action between the characters and another person or group?		1.0	
18	Did the participant recall that the characters had a conversation with friends?		2.0	
Conversation				
19	Did the participant describe anything that the characters were speaking to others about?		0.5	
20	Did the participant correctly identify that the conversation was about their lives ?		1.0	
21	Did the participant identify any plans made during the conversation?		1.0	
22	Did the participant correctly recall that the friends decided to all go out to dinner ?		2.0	
23	Did the participant identify when any plans were to take place?		1.0	
24	Did the participant correctly recall that the date for the dinner was on Thursday ?		2.0	
25	Did the participant describe a general location for where the characters planned to have a meal?		1.0	
26	Did the participant correctly recall that the setting for the dinner was at Luigi's ?		2.0	
Search				
27	Did the participant identify that something happened to the animal/pet?		1.0	
28	Did the participant correctly recall that the dog Maddy (or another animal) had gotten out of her leash ? <i>Accepted: leash, lead, collar</i>		2.0	

Participant: _____

Date: _____

29	Did the participant state a time when the characters noticed the animal got out of her leash (e.g., while talking, after saying goodbye, in the afternoon)?	1.0
30	Did the participant correctly state that Maddy got out of her leash after they said goodbye to their friends?	1.0
31	Did the participant mention any actions taken by the characters to find something or someone?	1.0
32	Did the participant use the word searched to describe what the characters were doing? <i>Accepted: searched, looked for, tried to find</i>	2.0
33	Did the participant indicate a location for where the characters were searching?	1.0
34	Did the participant correctly identify that the characters were searching in the park ?	2.0
35	Did the participant describe any attempts made by the characters to communicate with or locate someone?	1.0
36	Did the participant correctly recall that the characters were calling out her name ?	2.0
37	Did the participant mention any specific location that the <i>male</i> character (NOT the female character) checked during the search?	0.5
38	Did the participant mention more than one location that the <i>male</i> character (NOT the female character) checked during the search?	0.5
39	Did the participant correctly identify that one of the locations searched was the school ?	2.0
40	Did the participant correctly identify that one of the locations the <i>male</i> character (NOT the female character) searched was the school ?	1.0
41	Did the participant correctly identify that one of the locations searched was the playground ?	2.0
42	Did the participant correctly identify that one of the locations the <i>male</i> character (NOT the female character) searched was the playground ?	1.0
43	Did the participant mention any specific location that the <i>female</i> character (NOT the male character) checked during the search?	0.5
44	Did the participant mention more than one location that the <i>female</i> character (NOT the male character) checked during the search?	0.5
45	Did the participant correctly identify that one of the locations searched was the baseball field ? <i>Accepted: baseball field, ball field</i>	2.0
46	Did the participant correctly identify that one of the locations the <i>female</i> character (NOT the male character) searched was the baseball field ?	1.0
47	Did the participant correctly identify that one of the locations searched was the soccer field ? <i>Accepted: soccer field, football field</i>	2.0
48	Did the participant correctly identify that one of the locations the <i>female</i> character (NOT the male character) searched was the soccer field ?	1.0
Resolution		
49	Did the participant mention the outcome of the search?	1.0
50	Did the participant correctly identify that they found the dog? <i>Accepted: found, located, discovered, noticed</i>	2.0
51	Did the participant identify something the dog was doing when the characters found her (action, not just location)?	1.0
52	Did the participant correctly recall that the dog was playing with a stick ?	2.0
53	Did the participant identify where the dog was found (location, not just action)?	1.0
54	Did the participant correctly recall that the dog was found under a bench ?	2.0
55	Did the participant state the location where the dog was found in relation to an earlier location in the story (e.g., near the park, where they talked with friends)?	1.0
56	Did the participant explicitly state that the dog was found near where they stopped to talk with friends?	2.0
57	Did the participant mention the gender of the animal in the story?	1.0
Total		78.5
